

ATARI VCS 800

The Atari VCS 800 is a crowdfunded video game system announced in 2017. Backers received their units in 2020 and in 2021 the VCS was made available for sale to the public. The Atari VCS 800 offers updated joysticks, for compatible games, and a modern controller for everything else. Wireless Xbox and Playstation 4 controllers are also compatible with the VCS.

The VCS focuses on Atari's Recharged and Reimagined titles, retro style games, indie games, and homebrews. Games can be purchased in the store on the internal operating system. The VCS boasts the ability to install other operating systems of the users choice. Memory and storage can be upgraded, as well, encouraging the consumer to get technical to take advantage of these features.
