

# FINANCIALLY INTERACTIVE

The information below is only for context and consideration, and is not financial advice:

## PONGF

Atari SA is a french company and traded publicly as PONGF on OTC Markets and as ALATA on Euronext Paris. For approximately 2 years the price has been bouncing between 11 and 14 cents per share. If purchased overseas extra fees may apply upon attempt of purchase.

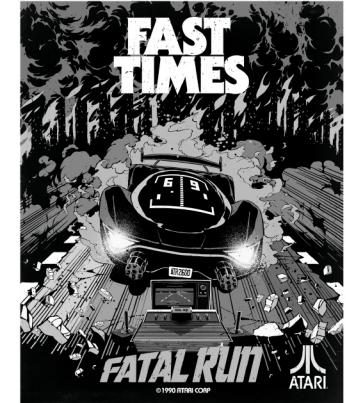

In 2020 Atari was in the process of getting heavily involved in the crypto currency community. the announcement of the Atari Token and the Atari Wallet was met with heavy skepticism. The Atari Wallet eventually disappeared and the Atari Token's stock fell well below the price of a penny. Plans for the Atari Coin were halted and a select group of investors were compensated with SAND Coins instead of the cancelled Atari Coin.

# ATARI CLUB / ATARI-X

With the Atari Coin and Token falling through, Atari needed to re-evaluate their role in the crypto / blockchain world. Keeping with the initial intent of allowing investors to be involved with online gaming for competition, prizes, and even just online hangouts.

Ownership of an Atari ARC NFT or 50 Years of Atari NFT allows access to exclusive content, airdrops, and rewards.

## NFTs

## WEB 3.0 HANGOUTS

Participation may require a crypto wallet on the Ethereum network. Ownership of necessary tokens/NFTs may be necessary to unlock rewards, competitions, and/or games. Log in to Opensea.io with your crypto wallet to purchase the ATARI ARC nft and/or 50 years of Atari NFT from AtariXDeployer
