

<https://shop.insidegadgets.com/product/gb-303/>

**GB303 is sort-of-a TB-303ish chip music cartridge.  
Designed by furrtek. Made in Australia.**

- Three high quality potentiometers
- Additional drum track with 30 presets
- Based on the sound of a real TB-303
  - Original '303 parameters:  
accent, slide, cutoff, resonance
- LSDJ note or master sync control
- MIDI control through ArduinoBoy  
and Nanoloop USB-MIDI
- 16KB Battery-less save space

**There may be some bugs with the  
original application software. Comes with a clear  
reproduction GB cart shell included separately.  
You will need to modify the cart shell.**
